## Bespoke Glass Vases

### *Fused & Dichroic Glass*

These vases are made from hand cut fused and dichroic glass designed into unique vases. The "Bauhaus Crush" scarf shaped design is first made into a square sheet comprising of 85 pieces and then fused in a kiln twice to create this shape. It can be used in a variety of ways from a vase to a stand alone glass sculpture.

These vases and other glass pieces are totally unique, one of a kind. Many of my pieces are influenced by architectural movements like the Bauhaus.

Cost of these pieces range from €550 - €750

# Glass Jewellery

## *Fused & Dichroic Glass*

I make bespoke fused glass jewellery which is colourful, bright and highly reflective giving each piece a luxury feel. All the glass jewellery is carefully handmade in my studio with many small cut pieces of glass. The dichroic glass gives vibrant reflections which make pendants and brooches really 'pop'.

Each of my collections is based around a colour theme or landscapes I have been inspired by. The unique jewellery pieces make fantastic gifts for all occasions. Please see the video below for a look at a selection of pieces designed for Showcase Ireland 2021, along with these I can also make specific designs for you.

Costs range for individual pieces at €35, €70, €90, €120 to €375 or for a collection of 10 small square pendants at €35 each.

Each piece comes with a sterling silver hook and can be easily and safely posted anywhere in the world.
